Request for donations to ensure safe and enjoyable climbing at Mt. Fuji

2015 Fujisan Conservation Donations Campaign

Mt. Fuji climbers are asked to give monetary contributions to help efforts for environmental conservation and enhancing climber safety

Donation requested for:

Mt. Fuji climbing sessions starting at 5th Stations

Donation amount:

JPY1,000 or more

Donation received at:

Yamanashi Pref.: Fuji-Subaru Line 5th Station; Yoshida Trail 6th Station
Shizuoka Pref.: Fujinomiya Trail 5th Station; Gotemba Trail New 5th Station;
Subashiri Trail 5th Station; Mizugazuka Parking

Campaign period :

Yamanashi Pref.: Wednesday, July 1 to Monday, September 14, 2015
Shizuoka Pref.: Friday, July 10 to Thursday, September 10, 2015

Purposes:

Collected donations will be used to introduce and enhance activities and services for environmental conservation, climber safety and information provision related to climbing Mt. Fuji at and above the 5th Stations.

The funds will not be used to maintain toilet facilities, including those installed in mountain huts. To support the maintenance of these facilities, climbers are asked to pay a small fee (JPY200–300) when using the toilet.

Donated funds will be used to enhance activities and services for environmental conservation, climber safety, and information provision (including promotion of the mountain as a heritage site) related to climbing Mt. Fuji at and above the 5th Stations.

Yamanashi & Shizuoka Prefectures

Financial contributions support a range of activities for safe and enjoyable climbing at Mt. Fuji

● Environmental conservation ●

- Installing temporary toilet facilities
- Research and examination of new technologies to be introduced into toilet systems for mountain huts
- Installing signage to raise awareness of climbing etiquette and rules

● Climber safety ●

● Increasing the safety of the down trails

- Repair of protective fences
- Installing a voice guidance system at the junction where Yoshida Trail and Subashiri Trail separate around the 8th Station (English and Chinese)

- Assigning guides to provide safety and route directions
 - Providing guidance to climbers and collecting on-site information
- Setting up first-aid centers
- Operation of the Safety Guidance Center
- Conducting climber trend surveys
 - Monitoring and analyzing climber trends using GPS loggers

● Information provision ●

- Setting up information centers
 - Stationing interpreter guides
 - Introducing tablet devices (for guidance in English, Chinese, Korean, Spanish, Portuguese)
 - Creating videos (English, Chinese) to help climbers better understand climbing safety and environmental conservation
- Improvement of the [General Administration Center](#)
- Operation of on-site safety headquarters
